Dr. Burk's Funeral Procession Leaving Chapel

Ledger Photo

Procession at the funeral of the Rev. Dr. W. Herbert Burk leaving the Washington Memorial Chapel at Valley Forge, which he founded. The picture shows the procession, led by two of the ushers, dressed in Revolutionary uniforms. They are John Pugh (with flag), followed by William Hummer, both of Trooper, Pa.

HERRIOT DEFENDS ROOSEVELT STAND

Ex-Premier Warns France Peace Cannot Be Assured Without Anglo-Saxons

ASKS ACCORD WITH U. S.

Paris, July 6 (Thursday).—(AP)—Former Premier Herriot became today the first notable Frenchman to defend President Roosevelt in the stand he has taken at the World Economic Conference.

Declaring the American President has been misinterpreted, the ex-Premier made a vigorous plea in his newspaper, Ere Nouvelle, for a better understanding with the United States.

He warned that "an association in which the Anglo-Saxons are not a part is insufficient to assure world peace."

He insisted that if France is to lose contact with the United States it also will lose contact with England.

The former Government chief said he found "much truth in the Straus speech"—referring to the Fourth of July address by United States Ambassador Jesse I. Straus, in which the latter said: European criticism of the United States was unfair and that the success of the American "experiment" would benefit the world.

M. Herriot concluded that those

TWO WINGS GOING ON HOUSTON HALL

Plans Call for Enlarging Building to Increase Dining Facilities

THEATRE IN SECOND FLOOR

Houston Hall at the University of Pennsylvania will be enlarged as soon as funds are available.

Two wings will be built to provide adequate dining facilities for all students and enable the structure not only to perform its functions properly but to become the foremost student union in the United States.

Plans and specifications have been prepared under the supervision of Robert Rodes McGoodwin, architect and graduate of the University, according to the Pennsylvania Gazette. The wings, each four stories high, will be added to the present structure on the east and west ends.

The east wing will be connected to the Irvine Auditorium and the west wing to the walk between Hare Laboratory and the present Houston Hall.

Exterior materials of the wings will be similar to those used in the present building.

The additions will necessitate a complete rearrangement of the services and equipment which are at present situate in what will become the central unit of the completed building.

Restaurant to Seat 400

The basement and the first two floors of the west wing will be de-

a store will be situated. Other services will be located there, such as a barber shop and soda grill. Most of the basement in the present building will be devoted to kitchens, refrigeration plant, storage and other mechanical equipment.

All of the floor space on the first floor of the present Houston Hall will be converted into lounges and a large cloak room and adequate lavatory facilities will be provided.

Theatre on Second Floor

On the first floor of the new east wing, the billiard and game rooms will be placed, as well as various offices. The second floor will be devoted to a little theatre, which will seat 600 and have a fully equipped stage and dressing rooms. The theatre will be connected directly with Irvine Auditorium, so that in case of overflow an affair may be transferred to the larger auditorium.

The auditorium in the present building will become a faculty club room and the adjoining rooms will become private dining rooms, which will be suitable for luncheons and dinners of campus organizations.

The third floor will be devoted mainly to meeting rooms, with rooms suitable for permanent quarters of such organizations as Sphinx
